

A CONVERSATION ON CHRISTIAN SCIENCE NURSING WITH OUR CHURCH FAMILY

At this year's Annual Meeting of The Mother Church, we were all invited to pray more deeply about the spiritual foundation of Christ-healing. Please join President of The Mother Church, Linda Kohler, and Manager of Christian Science Nursing Activities at The Mother Church, Caroleen Scholet, for an informal conversation on how this spiritual foundation enables us to care for and nurture one another in our branch churches, societies, and community. They want to hear about the needs in Central and North Florida. All are invited to attend.

WHAT? Explore with others the nature of God's love and care for each of us, and the spiritual qualities so familiar to Christian Science nurses that can be immensely helpful to more caring and support for each other in our branches.

WHO? The conversation will be facilitated by two experienced Christian Science nurses:

- the President of The Mother Church
- the Manager of Christian Science Nursing Activities

WHEN? Sunday, October 19, 2014, 2:30 to 4:30 PM

WHERE? First Church of Christ, Scientist, Orlando, FL
915 Ferncreek Avenue, Orlando, FL

Questions? Contact: Wellsprings of Florida at (407) 880-8700,
or Rob at (352) 239-4912,
or visit www.WellspringsFlorida.org/news/

"... 'Little children love one another'...you must love *all*. No matter if they persecute you even, you must love all. But you must especially love the brethren. You must meet with them, cheer them, in their labors, point the way of love to them and show them it by loving first, and waiting patiently for them to be in this great step by your side, loving each other and walking together. This is what the world must see before we can convince the world of the truths of Christian Science." (quoted from *Mary Baker Eddy Christian Healer* -- Amplified Edition, page 166)
